

PRODUCT REPLACEMENT NOTICE EFFECTIVE JULY 7, 2023

Eleiko has become aware of a quality deficiency and potential safety concerns connected to the Eleiko Hybrid Bar and is issuing a Product Replacement Notice. The impacted products include the Eleiko Hybrid Bar - 20 kg (Black), the Eleiko Hybrid Bar - 15 kg (Black), and the 15 kg and 20 kg versions of the limited edition Barbells for Boobs Hybrid Bar (Black).

Reason for the Product Replacement:

The Eleiko Hybrid Bar (Black) introduced a new surface treatment to the Eleiko bar range. While the bars met our rigorous testing standards when introduced, we have become aware of the potential risk for these bars developing a stress fracture that could lead to breakage. We are aware of three incidents in which the bar has incurred a stress fracture, including two cases of breakage. No injuries occurred in any of these instances. However, there is a potential for injury if breakage occurs. The faulty products constitute 0.3% of a total of 1,151 products distributed. Out of an abundance of caution and to meet our quality and safety promises to our customers, we are issuing a product replacement notice.

Replaced Products:

- Name: Eleiko Hybrid Bar (Black)
- Manufacturer: Eleiko Group AB
- Article Numbers: 3085462; 3085463; 3085462B; 3085463B; 3085462BFB; 3085463BFB; 3085462SG
- Distribution Dates: April 2021 to March 2022
